

ANIMAL STORIES

NAME _____

Directions: Read the story and solve the question the different ways asked.

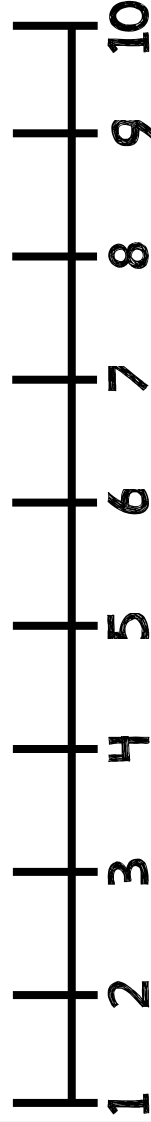

I can highlight the important information:

Tim, the veterinarian, helped three birds and two cats today.
How many total pets did he help?

I can solve this with pictures:

I can solve this on a number line:

I can solve this with a math sentence:

$$\boxed{} + \boxed{} = \boxed{}$$

This is my final answer:
